# teeki

**TEEKI** is an active wear line MADE FROM RECYCLED PLASTIC and sustainable materials all PRODUCED within the STATES using SOLAR POWERED facilities! Teeki's passion is to provide the world with eco-friendly, timeless, forward fashion.

**TEEKI IS FASHION. TEEKI IS CONSCIOUS. TEEKI IS LOVE.**

Why Teeki? **Price, Quality, & Sustainability!**

We're excited to offer Teeki active wear, a California based boutique designer. Teeki offers the same designer features consumers appreciate in quality designer active wear including flat, comfortable, durable seams; 4-way stretch material; reversible options; breathable, moisture-wicking fabrics; built-in key pockets; and many fun prints and colors!

Support recycling and the environment while you shop! Teeki uses P.E.T. or recycled water bottles as one of the main materials in its active wear. With each pair of pants you purchase YOU will recycle 18 to 30 water bottles! Look fabulous externally while feeling great internally!

**Margarita Designs.** A brand created by athletes for athletes. Located in northern Israel, a region surrounded by mountains and lined with the Mediterranean coast, the Margarita designers are inspired to create beautiful clothes with contemporary designs!

**AMAZE. REVITALIZE.**

### **Why you will love them?**

Margarita makes activewear that is perfect in both form and function! These gorgeous and unique designs can stand up against the activity of a kickboxing class and look great in a nice calm yoga class.

About this look:

- Great for all aspects of your active lifestyle
- Style that will look good running errands after a workout

**Liquido:** Made from LYCRA® SPORT fabric, a super soft, light fabric with lots of stretch to give you fantastic comfort. The waistband sits just above the hips, so there's no unsightly muffin top.

These pants should be worn for yoga, hiking, biking, running, jumping ..... then promptly worn again for an evening with the girls, a study session at the coffee house, or movie night with family! These pants are gorgeous and they hide imperfections in your long, wonderful legs!

**UNIQUE. FUN. STRONG**

LYCRA® SPORT fabrics are branded performance fabrics designed specifically to support athletes and active people. LYCRA® SPORT fabrics deliver a range of stretch and recovery power designed to help athletes move and perform at their best, while feeling comfortable.

[zob • ha] noun; grace, beauty or brilliance

**The design:** Zobha designs are functional, durable, and can handle any workout that you can. The clothing is lightweight, made of high-performing fabrics with exceptional fit and thoughtful details. This brand was launched by a yoga instructor but the quality and designs are great for running and general fitness. But, when the

designer is an athlete you can expect more!!!!

### QUALITY DESIGNS & HIGH QUALITY FABRICS

As two examples,

(1) the brand's innovative yoga panties are super thin, seamless, and invisible under fitted pants.

(2) the length of the capri is just right to keep your legs covered and not slippery for arm balancing, while still being cool enough for the hottest yoga class.

Beautiful, easy to wear, comfortable and timeless you will keep your Zobha clothes in your closet for years!

**The fabric:** The fabric feels soft, like silky cotton against the skin ..... except it is not cotton. It is a blend of pre-shrunk Supplex® and Lycra® which is soft on the skin, while providing moisture-wicking, breathability, quick-dry, shape retention and stretch recovery.

Sweat through a hot yoga class and walk out of the studio without the dreaded baggy knees. The fabric breathes and dries fast! And, during your practice don't worry about readjusting your clothes. Regardless of what position they stay in place and your private parts will not become public.

Wash these pants over and over and they will still fit the same, not fade or pill or thin.

#### The make:

- 87% Supplex nylon/13% Lycra spandex
- Machine wash, tumble dry
